

CEI (Centre for Entrepreneurship & Incubation)

Infrastructure

The Incubation Centre shall offer on-site business facilities to aid entrepreneurship among students. The facilities on campus would include office space, computers, printers, communication systems, and Internet connectivity etc. - amenities that budding entrepreneurs may need at the business plan stage of a new venture. It also provides a meeting room for discussion, to propel ideas and to network.

Clubs

These club are created with the objective of Planning, Organising and Managing all activities that may give more opportunities to students for developing their innate talent and holistic personality. As a student you'll work with us to share and promote business ideas in a milieu that fosters entrepreneurship and innovation.

Our students gain lot of exposure and experience through regular webinars, seminars, activities and formal programmes . A rich and varied number of professional interest clubs evolves and reflects the college global view and collaborative learning ethos.

Few clubs are listed below :

- **Allenpreneur–The Entrepreneurship Club**

This club is created with an objective of Planning, Organising and Managing all Incubation & Entrepreneurship activities to promote Entrepreneurship Development in Students.
